Auditorium in Springfield, Mass. The show is being conducted along the same lines as the local exposition, and same lines as the local exposition, and the delegates returned with many new ideas and with a number of contracts signed up for space in the armory. Several prominent features of the Springfield exhibition will be on hand for the show to be given here. The delegation stated that the Springfield show eclipsed all records for attendance and variety of exhibitions, and that Fred Prescott, or King Prescott as the Springfield people have dubbed him, has lived up to his renowned reputation. For beauty of decoration, the local delegation say that nothing ever produced here has excelled what they saw at Springfield and Mr. Prescott has promised to give the local show the same grade of decoration.

Why Do French Women Always Look Young?

In France mothers and daughter look like sisters. How are the women there able to retain their youthful looks until long past middle age? Is a because they are much given to the us of mercolized wax? This wax possesse a remarkable absorbent property which quickly removes the fine particles of cuticle which are constantly dying an which are the immediate cause of an old-looking complexion. Thus the iyeller, healthler, younger skin be neath is given a chance to breatne and show itself. Try this treatment your self. Most likely it will not requir two weeks to make your complexion as self. Most likely it will not require two weeks to make your complexion as clear, soft and beautiful as a young girl's. Just one ounce of mercoized wax (all American druggists have it) usually does the work. The wax is put on nights like cold cream and washed off mornings.

Another valuable secret with which the French are familiar is how to quickly remove wrinkles. One ounce of powdered saxolite dissolved in a half pint witch hazel makes a marvelously effective astringent lotton. The face should be bathed in this daily until even the deepest lines are affected.
